

TECHNICAL DATA SHEET**BIOCHEM PLUS
COUNTRY OF ORIGIN - CHINA****Description:**

BIOCHEM plus, a high-molecular hydrophilic colloid, provides excellent thickening and stabilizing in systems based on its unique pseudo-plastic rheological behavior. It is produced by fermentation of corn starch with xanthomonas campestris.

PARAMETER	STANDARD VALUE	TEST METHOD
Appearance	White like or light yellow free flowing powder	DFFXC001
Particle Size	40 mesh	DFFXC004
PH Value (1% solution)	5.5-8.0	DFFXC006
Loss on Drying	≤15%	DFFXC003
Ashes	≤16%	DFFXC027
3rpm (1ppb in 4.2% seawater)	≥15	DFFXC043

Application: for oil drilling application.

Packing: 25Kg Net in cartons or bags with Inner PE bags.

Shelf life: 24 months in dry and airtight conditions.
