

TECHNICAL DATA SHEET**BIOCHEM PREMIUM
COUNTRY OF ORIGIN - CHINA****Description:**

BIOCHEM Premium, Xanthan gum is made from corn starch by Xanthomonas fermentation, extraction, drying and crush, which has good rheological properties and anti-shear capacity, is a kind of hydrophilic biological polymer material used as thickener and stabilizer.

PARAMETER	STANDARD VALUE	TEST METHOD
Appearance	White-like or light yellow free flowing powder	DFFXC001
Particle Size	40 mesh	DFFXC004
PH Value (1% solution)	5.5-8.0	DFFXC006
Loss on Drying	≤15%	DFFXC003
Ashes	≤16%	DFFXC027
3rpm (1ppb in 4.2% seawater)	≥18	DFFXC043

Packing: 25Kg Net in bags with Inner PE bags.

Shelf life: 24 months in dry and airtight conditions.
