

**CERTIFICATE OF ANALYSIS****BIOCHEM TD  
COUNTRY OF ORIGIN – CHINA****Description:**

BIOCHEM TD, a high-molecular hydrophilic colloid, provides excellent thickening and stabilizing in systems based on its unique pseudo-plastic rheological behavior. It is produced by fermentation of corn starch with xanthomonas campestris.

| ITEMS                       | SPECIFICATIONS                                 | TEST METHOD |
|-----------------------------|--|-------------|
| Appearance                  | White-like or light yellow free flowing powder | DFFXC001    |
| Particle Size               | 40 mesh  | DFFXC004    |
| PH Value (1% solution)      | 5.5-8.0  | DFFXC006    |
| Loss on Drying              | ≤15%   | DFFXC003    |
| Ashes                       | ≤16%   | DFFXC027    |
| 3rpm(1ppb in 4.2% seawater) | ≥12.5  | DFFXC043    |
| Dispersibility              | ≤ 3  | DFFXC037    |

**Packing:** 25Kg Net in bags with Inner PE bags.

**Shelf life:** 24 months in dry and airtight conditions.
